CUT COSTS, NOT CORNERS, WITH THE **SANITAIRE QUIET CLEAN LINE.**

The vacuums in the Sanitaire Quiet Clean line will help you reduce maintenance increase productivity, and ultimately, decrease operating costs.

Reduce Maintenance Time. We know that every minute of downtime goes directly to your bottom line. That is why we reengineered the motors on the Quiet Clean line to last twice as long. And why we include insightful design elements that keep machines running — not waiting for repair.

Work Longer in Daytime Hours. With the growing trend toward working longer hours and cleaning during the daytime, a quieter vacuum is a must. Operating at less than 70 decibels, the Sanitaire Quiet Clean line lets you clean 24/7 without disrupting the environment around you.

Immediate Cost Savings. We know that you are under pressure to reduce costs. Our new bagless model eliminates the need to buy vacuum bags and have them on hand for employees - saving money and adding ease for you and your staff. Most models in the Quiet Clean line also feature washable filters to further cut costs and help maintain a cleaner environment.

CRI SEAL OF APPROVAL
Industry approved,
exceptional results

U.S. GREEN BUILDING COUNCIL™
Certified and recognized
member, Sanitaire

2 YEAR WARRANTY
The Sanitaire Promise
of Performance™

Air Clean. Go Green. Most Quiet Clean models have a Sealed HEPA filtration system that captures 99.97 percent of allergens and pollen down to 0.3 microns. All models have the CRI seal of Approval and meet all equipment requirements set by LEED guidelines.

Quality, Guaranteed. The Quiet Clean uprights are built in our own North American facility to withstand the rigors of commercial use, day after day. All Sanitaire vacuums are certified by Underwriters Laboratories to ensure quality and safety in components, operation and design. In addition, all of the Quiet Clean products are backed by the two-year Sanitaire Promise of Performance. It warrants parts, material, workmanship and labor to further reduce maintenance costs and downtime and is supported by a network of more than 1,200 warranty service centers throughout the United States.

**Cut Costs,
Not Corners.**

A variety of quiet, durable and high performance models fit any cleaning need.

Two-Motor Uprights Set the Standard. The innovative Sanitaire Quiet Clean line includes multiple platforms. The powerful, 2-motor uprights are durable, versatile, easy to use and a breeze to maintain. Available with and without attachments and with features such as large capacity, easy drop in bag system, quick change power cords and sealed HEPA filtration, these cutting edge cleaners are exactly what you need for your business.

A New Classic. Our classic, traditional upright model brings with it decades of proven quality with new innovative features. Just flip the switch and go from normal to Quiet Clean mode without any substantial trade-off in cleaning performance.

Maneuverability, Refined. For those who need to move in and around a multitude of obstacles, look no further than the Sanitaire backpack cleaner. It's lightweight and powerful — equipped with a comfortable harness that quickly adjusts to any operator. The wide assortment of accessories includes curved aluminum wands and multiple tools for all of those hard-to-reach places.

**Powerful Tools.
Daytime Decibels.**

Smooth and Quiet Single-Motor Uprights. Developed in response to the popular day cleaning trend, our reengineered single motor uprights come with enhancements such as the new TrueBalance brushroll and an innovative dampening system that provides smooth operation for quiet performance. These features that allow your staff to clean during the day can help significantly cut utility costs when you're able to turn lights and HVAC off at night. Your staff also will appreciate the more desirable daytime shift, which curbs the high staff turnover that can require additional funds for training and retaining employees.

Unsurpassed Filtration and Features. But we kept the important features such as the Washable Sealed HEPA filtration system which captures 99.97% of dust and allergen particles 0.3 microns in size – that's 240 times smaller than a human hair. The on-board tools include an oversized diameter hose that resists clogging and reduces unexpected downtime for repairs and stretches to 10 feet for maneuvering in large areas. The dust bag models feature a bag safety lid which prevents operation without the bag in place, and the bagless model touts one of the largest dust cups in the industry. Combine all of that with the choice between 13" and 15" cleaning paths and you are sure to find the perfect vacuum for your cleaning needs.

Proven Designs + Improved Filtration = The Perfect Green Solution

Quality You Expect. Features You Need. Part of Sanitaire's Green Clean line, these models combine the ruggedness of our time proven platforms with easy-to-maintain designs and improved filtration systems. The traditional upright models feature the same design and powerful cleaning that you have come to expect with the dual zipper, easy access bag system. Choose from the Duralite lightweight that only weighs 10 pounds, to the 7 amp traditionals, to the two-motor compact upright with its folding handle that makes it convenient to store and transport.

Green Cleaning, Guaranteed. All of the models in the Green Clean line are CRI approved and are built in our North American manufacturing facility to work day after day. Every model is rigorously tested and certified by Underwriters Laboratories to ensure it is designed and built to last. Sanitaire also backs each vacuum with the Sanitaire Promise of Performance two-year warranty which covers parts, material, workmanship and labor.

**Superior Cleaning.
Bagless Options.**

Bagless Style. High Filtration. Our high filtration dust cup uprights are the perfect solution for those that don't want to keep track of, or pay for disposable bags. These products provide immediate cost savings by getting rid of the need to replenish or have bags on hand, so your staff can focus on cleaning and reduce time and money spent on maintaining the vacuum. Our bagless models have the same great cleaning system but combine an outer bag with an easy to empty dust cup. Simply release

the two latches, pivot the upper bag back and pull out the cup to empty. Reverse the process and you are ready to get back to cleaning in minutes. Models range from 5 amp to 7 amp motors, molded and chrome hoods, 30'-50' power cords and all are U.L. listed.

Eliminate Unscheduled Downtime. Our dust cup uprights are designed and built in our North American manufacturing facility with highly-efficient, extra long-lasting commercial motors for less maintenance and unscheduled downtime. In addition, each model is covered by the Sanitaire Promise of Performance two-year warranty.

**High Capacity Bags
Mean Fewer Stops
for Maintenance**

Less Stop. More Start. For those with large areas of carpet, a large capacity vacuum eliminates stops and starts and keeps productivity high. The Sanitaire shake out bags can handle a huge 18 quart volume and these cleaners have proven their cleaning ability with reengineered, long-life motors that are built to last for many years. To empty, simply remove the bag with the quick release clamp system,

slide off the bag clip on the top and shake out the dirt. Put the assembly back onto the machine and you are back on the cleaning job. Models range from 5-7 amp motors, molded and chrome hoods, 30'-50' power cords, 12-16" cleaning paths. All models are built in Sanitaire's North American manufacturing facility, are U.L. listed and are backed by Sanitaire's Promise of Performance two-year warranty.

**The Perfect
Detail Cleaner**

Easy to Use for a Quick Clean. Our proven canister is compact, powerful and features telescopic metal wands to reach those difficult cleaning locations. Accessories like the deluxe floor tool, dusting brush, upholstery and crevice tools, carrying strap and available HEPA filter make this the perfect detail cleaner. This versatile, durable and simple-to-maintain product has an easy drop in bag system and a long-life motor designed to keep your staff up and running. The canister is U.L listed and backed by our two-year Sanitaire Promise of Performance warranty that covers parts, material, labor and workmanship.

**Ideal for Carpet Drying
and Restoration
Projects**

Sanitaire Air Movers provide high performance and durability. A three-speed switch allows you to choose the right power level for the job. The powerful ½ HP motor makes these Air Movers ideal for carpet drying and restoration projects. They come with a 20' power cord and are ETL listed for commercial use. The large handle makes them easy to carry and the units are stackable. Add the telescopic handle feature to ease your task even further.

Designed with Industrial Materials, These Durable, High Performance Machines are Built to Last

Our floor machine assortment ranges from a ½ horsepower, lightweight compact to a 1500 RMP burnisher. Designed with coated steel plate housings these durable, high performance machines are built to last. The exclusive, quick connect handle on all of the models reduces the package size by 40%, allowing for convenient ground shipping. This provides savings in both shipping and inventory costs. Additional features include a 50' cord, safety shut-off switch and multi-speed motors.

76225-355N	Cord Lock	SC881, SC882, SC883, SC889, SC9150, SC9180
80113	30-ft.- Extension cord	SC9050
80250-355N	Cord Lock	SC9050

CRI Seal of Approval

Sanitaire CRI Green Label™ approved vacuums can satisfy any job requiring a higher level of filtration. The CRI Green Label signifies a superior cleaning vacuum that has passed stringent testing for soil removal, dust containment and carpet appearance retention.

Promise of Performance

The Sanitaire Promise of Performance warranty covers parts, materials, workmanship and labor for a full two years and is backed by a network of more than 1,500 warranty service centers across the United States.

L.E.E.D. Program

Sanitaire is a member of the U.S. Green Building Council which has developed the Leadership in Energy and Environment Design (LEED) program. For a vacuum cleaner to qualify for this designation it must be CRI approved and operate below 70dB. Sanitaire Quiet Clean models qualify and are designated with the statement “Meets LEED Requirements”.

Quick Kleen

A clear polycarbonate cover to view, service or access the impeller fan without removing the motor to reduce maintenance time.

Extended Motor Life

We have re-engineered our motor to include features like integrated bearings and an enclosed carbon brush system. These enhancements result in a motor life of over double that of our previous long-life version, resulting in reduced maintenance and downtime.

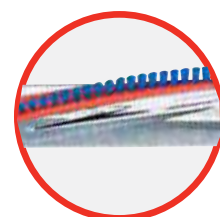

True Balance Brushroll

Made from select hard maple, this double ball bearing brushroll is guaranteed to be in balance and provide superior cleaning with smooth, quiet operation.

Washable Sealed HEPA Filtration

Only Sanitaire sealed HEPA vacuums with their patented filtration system capture 99.97% of all particles down to 0.3 microns for cleaner indoor air. Even the carbon dust emitted by the motor is captured. Sanitaire sealed HEPA models give you the satisfaction that you are not only cleaning the carpet more efficiently, but also emitting only clean air back into the room. All of our filters are washable for reduced maintenance costs.

Vibra-Groomer Brushroll

A tough, chrome steel, double ball bearing brushroll built to withstand commercial use. Choose from all bristle and bristle/beater bar combination. These brushrolls have replaceable bristle strips - no need to replace the entire part so you save on maintenance costs.

Why Sanitaire?

A History of Success. Sanitaire sets the standard for quality and performance in commercial cleaners. For more than 35 years we have manufactured our products in our own facility in North America, allowing us to control all phases of the manufacturing process and ensure the highest quality standards are met consistently.

Insightful Designs. We develop cleaning equipment from the ground up, using research and insights from the commercial end user. We talk to cleaning professionals — the people who use the product all day, everyday — and identify their problems before starting the designing process. As a result, products like our DuraLite commercial lightweight upright and Quiet Clean line offer real solutions to our customers' needs.

Personal Touch. Our sales team is committed to working with end users and distributors to provide training, communication and support for our cleaning solutions. We work hard to help cut costs, not corners. And that's a win/win for all concerned.

Full Service. Today, Sanitaire offers a comprehensive line-up that includes the vacuums for which we are known — uprights, canisters and back-packs — as well as industrial carpet cleaners, floor machines, and air movers.

Quality, Guaranteed. All of our vacuums* are backed by the Sanitaire Promise of Performance warranty which warrants parts, material, workmanship and labor to further reduce maintenance costs and downtime. All Sanitaire products are backed by a network of more than 1,200 warranty service centers throughout the United States.

*Except models SC678, SC679 and SC689 which have a one year warranty
